Saf-T-Pay, Xt:Commerce ink partnership agreement

19/02/2007 **by Carla Moore**

Print | Email Colleague | Add Comment | Comments (0)

Xt:Commerce, a German shopping cart company, has contracted Saf-T-Pay, an e-payment solutions provider, to integrate Saf-T-Pay's technology into its online shopping solution.

Saf-T-Pay's system allows e-banking customers and online shoppers to make e-commerce purchases worldwide directly through their local bank so that the customer can shop globally, but pay locally. The system is designed so that the customer does not have to disclose any personal financial information.

security and outsourcing spending plans of major short-term opportunities in the German public sector.

+ **Email filtering services**

While no one doubts the importance of email, the reliance of many organizations on this solution means that viruses, inappropriate content and spam have become a serious headache. This document assesses the effectiveness of email filtering services as a means of protecting email systems from these problems without placing an excessive administrative burden on the in-house IT department.
